Tour Class Double Chain
Bass Drum Pedal

Gibraltar's new Road and Tour Series pedals fuse versatility, style, speed, power and performance into a compact package. Crafted with a sleek G Class pillar frame, both series feature a patented spring rocker arm and are equipped with a single point adjustment for easy beater & pedal board placement. Choose between three different cam drive options for the precise feel to suit your playing or musical style. Quick and easy mounting with Gibraltar's new side mount hoop clamp. Both series available in single and double pedal formats.

Stealth
Docking Station

Introducing Gibraltar's Docking Station - a revolutionary new addition to our preeminent Stealth Series. The unique "U" Bar creates a stunning visual frame for any kit while accommodating unlimited positioning for mounting drums, cymbal arms and accessories anywhere across its arc. A new alternative to the traditional front rack, the Docking Station eliminates tripod clutter and offers a lightweight option to transporting several stands. Includes three mounting clamps & tom mounting arm with two size L-rod options.

E-Drum Multi-Purpose Rack Bundle

With the foundation of the GMPR rack this electronic rack bundle pack comes with additional clamps to hold (3) cymbals, (4) pads, and a module. The simplistic design is not only light weight, but has a clean look and small footprint. It can be used as an upgrade for other electronic drum rack systems.

KEYBOARD

GKS-DBKT88
Double Key Tree
2-Tier Keyboard Stand

Gibraltar's sleek and sturdy Key Tree stands offer maximum portability and style for keyboards and controllers. Offered in two attractive, dual-tier models designed to accommodate full 88-key (GKS-DBKT88) boards, or medium/ large 76-key (GKS-KT76) boards. A modern, curved-frame profile enhances stage presence and provides stability for the heaviest of keyboards. Plenty of room for expandability and customization. Both Key Tree models include memory locks to ensure precise positioning.
