SELECT

HIGH-VALUE PERFORMERS

The Select Series is a robust, high-performance series suitable for a broad range of applications, including studio, live performance, rehearsal halls, rentals, and more. Designed to last a lifetime (and warrantied to do so), Select series cables take a no-nonsense approach to design, pairing time-proven cabling drawn from Cordial's German-designed and manufactured premium bulk lines with hand-soldered Neutrik® connectors. The result: Cables that deliver top-level performance with reliability you can count on day in and day out – even under demanding conditions.

Features include:

- 99.99% pure virgin oxygen-free copper core and shield for superior signal transmission
- High-density copper shield for optimum noise rejection
- Noise-eliminating core sleeve
- Ultra-low capacitance/low resistance
- Hand-soldered Neutrik® connectors
- Retail pricing typically 30%-40% lower than other premium cable brands
- Lifetime EZ-Swap Limited Warranty

Premium Instrument Cables

1/4" TS to 1/4" TS Right Angle EFX Patch Stomp Black Cable

MODEL CPI RR

The CPI RR features the same attributes as its two CPI siblings (CPI PP and CPI PR), but it is additionally equipped with 2 right angle plugs.

03719601 6-Inch.....MSRP \$35.99 • MAP \$27.99

03719602 10-Inch.....MSRP \$38.99 • MAP \$29.99

1/4" TS to 1/4" TS Straight Black Cable with Nickel Plugs

MODEL CXI PP

Budget-priced but still with excellent electrical properties, this cable has proved to be a reliable tool for all kinds of applications – whether on stage, in the studio or rehearsal room. It guarantees a continuous, extremely pure sound due to its outstanding capacitive values.

03719688 10-Foot.....MSRP \$46.99 • MAP \$39.99

03719696 20-Foot.....MSRP \$52.99 • MAP \$44.99

1/4" TS to 1/4" Right Angle Black Cable with Nickel Plugs

MODEL CXI PR

This high-grade but budget-priced instrument cable features excellent electrical properties and a 90-degree angle plug on one side. This cable has proved to be a reliable tool for all kinds of applications – whether on stage, in the studio or rehearsal room. It guarantees a continuous, extremely pure sound due to its outstanding capacitive values.

03719693 10-Foot.....MSRP \$46.99 • MAP \$39.99

03719700 20-Foot.....MSRP \$52.99 • MAP \$44.99

Direct Boxes with REAN® Neutrik Transformers

These passive DI boxes don't require any batteries or phantom power. A sturdy steel housing with antiskid stands and recessed controls guarantees a secure footing and minimizes the risks of accidental damage. The "REAN made by Neutrik" transformers and sockets ensure extraordinary durability and a long product life.

Single-Channel Direct Box

MODEL CES01

Easily connect line level outputs or speaker outputs to balanced mixing desk inputs with microphone level sensitivity with this single-channel passive DI box. Ground lift function and 30 dB attenuation can be activated using large-scale toggle switches.

03719937 MSRP \$89.99 • MAP \$79.99

Dual-Channel Direct Box

MODEL CES02

In line with the latest trend, i.e. keyboards, samplers and effects units with stereo outputs, this passive DI box allows you to easily connect line level outputs to balanced mixing desk inputs with microphone level sensitivity. The CES 02 features a completely ground separated inner design and that means that two mono signals can be transmitted without any cross talk. The

technical specifications of the transformer meet studio standards.

03719938MSRP \$185.99 • MAP \$169.99

Premium Microphone Cables

Balanced XLR Connectors Black Cable
MODEL CPM FM

This mic cable is a professional balanced connection between mic and stage box or mixing console. The conductor size of 0.22 mm² guarantees a dynamic sound. Transparent shrink-on tubes on both cable ends simplify individual labeling.

**1/4" to 1/4" Straight
Phone Plug Cable with
Yellow/Brown Tweed**
MODEL CXI PP-TWEED

This first-rate, bicolored instrument cable features a classical design, matching retro style amps. Our bulk cables don't soil easily and can simply be cleaned just by using a wet cloth. It has a warm and balanced sound, guaranteeing a genuine, unimpaired and pure tube sound.

03719692 10-Foot.....MSRP \$69.99 • MAP \$59.99

03719699 20-Foot.....MSRP \$79.99 • MAP \$69.99

Premium Instrument High-Copper Cables

Part of the Peak series, the High-Copper series cables boast the highest copper content of any comparable brand. More copper means more of your original signal passes through the cable without compromise, so your highs remain brilliant, your mids stay razor-focused, and your lows thump the way you do – even over long distances. You put your all into your music and your tone. Shouldn't you be using cables that can deliver it?

Other features include:

- Largest diameter copper conductor cores on the market, typically 3x standard cables
- Exceptional linearity and frequency response
- Ideal for long-run applications; pure signal transmission up to 50 ft.

1/4" to 1/4" Straight Phone Plug Black Cable
MODEL CSI PP 175

If you're looking for an instrument cable guaranteeing a great live sound, this cable should be your first choice. Equipped with high-grade plugs and the sturdy bulk cable CGK 175, it features a cross-section of 0.75mm² and epitomizes stageproof flexibility.

Premium Instrument High-Copper Cables with Enhanced Road Toughness

The "Road" series is considered a trailblazer in terms of its qualities on stage. Its resilience is legendary and experts consider these to be almost indestructible guitar cables. The CGK Road 75 bulk cable includes partially gilded and highly conductive contacts of the green connector. Every component is designed in order to survive extreme strain on the road without damage. The very flexible "road wrap" included with these cables is practically indestructible!

1/4" to 1/4" Straight Phone Plug Black Cable
MODEL CRI PP

Our basically indestructible

CRI PP "Road" is known as the workhorse of any stage musician. It is highly flexible, has comfortable handling and equipped with a cross-section of 0.75mm².

25th Anniversary Premium Instrument High-Copper Cables with Vintage Jacket

25 years of Cordial means 25 years of experience in the field of instrument cables – a know-how which is reflected in a novel series of limited woven jacket cables. Visually appealing due to their woven jacket design in Cordial's corporate colors of anthracite and copper, this new bulk cable features a conductor cross-section of 0.50 mm² (comparable fabric cables usually only have a conductor cross-section of 0.22 mm²). The pair shielding with a braiding of bare copper wires on conductive plastic minimizes microphonic effects. These special edition cables combine Cordial's renowned quality standards with a unique and distinctive design.

1/4" Straight to 1/4" Straight Phone Plug Cable

MODEL CXI PP EDITION 25

This limited-edition instrument

cable features 2 straight connectors and matching gold-plated contacts for effective corrosion prevention.

Premium High-Copper Instrument Metal Cables

with Translucent Copper/Clear Sleeve

"The soul of pure copper" – under this slogan Cordial presents this guitar cable with a visually and technically sophisticated cable design. Based on the first-rate bulk cable CGK 175, these "metal" cables feature an extensive conductor insulation of conductive plastic, thus achieving very low capacitive values which result in an unfettered, crystal clear sound. Cordial uses high-purity, oxygen-free material for all copper components of the cable.

1/4" to 1/4" Straight Phone Plug Cable

MODEL CSI PP METAL

42 inner conductor strands bring about extremely low resistance values and – at the same time – an exceptionally high flexibility with this cable. The icing on the "metal" cake is the semi-transparent and robust PVC jacket in combination with massive Neutrik NP2x connectors, gold-plated contact areas and a distinctive copper-colored coating.

Premium High-Copper Microphone Cables

These bulk cables boast of superb transmission characteristics: low attenuation due to the 2x 0.50 mm² conductor cross-section – ideal for long cable runs. Highly pure copper (OFC) is used. This too is vital for pure, unadulterated sound.

XLR to XLR Black Studio Cable with Gold-Plated Contacts

MODEL CSM FM GOLD 250

The high-end studio-microphone cable CSM FM Gold 250 comes with all the relevant features for demanding voice recordings. The gold contacts of the Neutrik XLR male and XLR female plugs that are fitted within the cable reduce the risk of corrosion to a minimum. The cables have transparent shrink sleeves for individual marking.

CORDIAL

ESSENTIALS

GATEWAY TO CORDIAL QUALITY

The Essentials line of cables provides a highly affordable entry into the world of Cordial's True to the Source(TM) audio with a wide range of professional products at decidedly musician-friendly prices. The secret? Cordial's engineering, designs, and attention to quality and detail are cost-reduced via offshore manufacturing and the use of Neutrik REAN® plugs. Like their German counterparts, Essentials products use Cordial's 99.99% pure virgin (non-recycled) oxygen-free copper and are manufactured to exacting specifications.

Features include:

- 99.99% Oxygen-Free (OFC) non-recycled copper for purest, most dynamic signal
- 24-gauge multi-stranded center cores for flexibility and long life
- Low capacitance/low resistance design for True to the Source(TM) performance
- High-Density spiral shield provides exceptional protection from RF interference
- REAN (by Neutrik) connectors deliver superior fit and durability
- Hand-soldered to guarantee optimum signal connection
- Kink-free flexible outer sleeve
- Designed and manufactured to the exacting standards Cordial is known for world-wide
- Built-to-last quality
- Lifetime E-Z Swap Warranty (5 Years on Stage Multi-Snakes). See www.cordialcablesusa.com for details

Instrument/Guitar Cables with Neutrik Style Connectors (REAN)

**1/4" TS to 1/4" TS
Straight Black Cable**
MODEL CII PP

The CII PP is not only sturdy and durable but can especially boast of excellent winding properties. Very much liked by musicians that request a pure sound as well as easy handling.

03719876 1-Foot.....MSRP \$21.99 • MAP \$18.99

Pedal Board Patch Cables

**Low Profile Pedal Board
Cable, RA 1/4" to RA 1/4"**
MODEL CFI RR

Our CFI RR – a reliable patch cable not only for foot pedals or pedalboards. Due to its angled jack plug design, it is space-saving and, at the same time, not thicker than the widely advertised flat angle plugs. Our REAN® by NEUTRIK® plugs allow easy and trouble-free plugging in and unplugging and also facilitate any rewiring considerably. The robust jacket ensures effective protection against impact damage and its technical properties (conductor cross-section 0.22 mm², spiral wound shield) guarantee an undistorted and pure sound transmission. So, in the end, you can be dead certain that, due to the technological design of our CFI RR, your effects pedal will determine your sound and not a second-rate cheap cable.

(continued)

Y Adapters

The cross section of these Y-cables is 2x 0.22mm², resulting in a clean signal transmission combined with good stability and flexibility. The plugs are hand soldered by Neutrik® (REAN made by Neutrik®), and gold-plated contacts protect against disintegration of the metal by oxidation, i.e. corrosion. The split at both ends is about 15 cm long and the individual ends are clearly marked.

 **Male RC to Two Female RCA Plugs 106 Black Cable**
MODEL CFY CEE

The Y adapter cable CFY CEE is used for splitting 1x female Cinch plug into 2x Cinch sockets. This splitter is very popular for studio and stage as well as DJ applications.

03719818 1-Foot.....MSRP \$26.99 • MAP \$22.99

 **Balanced XLR to Two Balanced XLRM Plugs 106 Black Cable**
MODEL CFY FMM

If you aim to avoid any audible loss of quality by using a high quality adapter cable in the studio or on stage and want to split, e.g. an audio signal to 2 power amps or for the use with in-ear systems, you will find the best solution in our CFY FMM Y-adapter with 1x female XLR to 2x male XLR connectors.

03719819 1-Foot.....MSRP \$29.99 • MAP \$25.99

 **Stereo 1/4" Female Mono Plug to Two 1/4" Male Mono 106 Plugs Black Cable**

MODEL CFY GPP

The CFY GPP 1x 6.3 mm mono jack socket to 2x 6.3 mm mono jack plug adapter cable is used whenever you need to merge 2x mono into 1x mono, for example when splitting mixer signals.

03719820 1-Foot.....MSRP \$32.99 • MAP \$27.99

 **Two 1/4" Male Mono Plugs to Stereo 1/4" Female Plug Black Cable**
MODEL CFY KPP

Our split cable CFY KPP is a popular tool to lead 2 mono signals from an interface to an in-ear monitor.

03719821 1-Foot.....MSRP \$29.99 • MAP \$25.99

 **1/4" Male Mono Plug to Two 1/4" Female Mono Plugs Black Cable**
MODEL CFY PGG

Two instruments that should alternately be operated via one amp, but only one jack socket on the amplifier? Or two guitars via an effects device? The CFY PGG adapter cable is the simple and appropriate solution.

03719822, 1-Foot.....MSRP \$33.99 • MAP \$28.99

 **Stereo 1/4" TRS Plug to L/R Mono RCA 106 Black Cable**
MODEL CFY VCC

This splitter (1x 6.3 mm stereo jack plug to 2 x Cinch) is ideally suited for the line connection of a sound card.

03719830 3-Foot.....MSRP \$27.99 • MAP \$23.99

Digital Interface Multicore Cable Snakes

These cable snakes each include at least one D-SUB pin configuration which complies with correlating TASCAM or Yamaha D-SUB specifications and features a nickel-plated metal housing. Characteristic for our corresponding bulk cable CMD 8 are the spiral wound tinned copper pair screens and an additional tinned overall shield. These features guarantee the excellent transmission of analog as well as DMX signals.

**Two TASCAM Male
D-SUB 25 Connectors
Black Cable**

Multicore Snake Systems with Stage Box

These CYB multicore systems were especially developed for quick and efficient production jobs. They are particularly suited for the transmission of analog signals between FOH and stage or between control and recording room. The CYB multicore systems feature strain relief, kink protection and a trapeze-shaped stage box. Stage box, connectors and bulk cables are hand-soldered and made by REAN, a Neutrik brand. As useful accessories we also offer a matching gig bag as well as fluorescent channel number labels for dark stages.

CEON

FOR CONTEMPORARY DJS

An ideal complement to today's modern DJ rigs, the CEON line features stereo (dual mono) versions of the company's premium dual-core 0.22mm (AWG 24) cabling outfitted with eye-catching neon wraps. Offered in 3x DJ-friendly lengths, 3x hot colors and 3x essential plug configurations.

Features include:

- Cabling designed and manufactured in Germany using the finest German materials
- 99.99% pure virgin oxygen-free copper core and shield for superior signal transmission
- Ultradense spiral-wound shielding for superb transient response and noise reduction
- Flexible design for easy routing and installation
- Hand-soldered Neutrik connectors (RCA plugs: REAN by Neutrik)
- Dual-mono design
- Lifetime EZ-Swap Limited Warranty

Premium DJ Dual/Mono (Black Light) Cables

Hi-Flex DJ's Choice Stereo Cables

RCA to RCA Straight Cables

MODEL CEON CCU CC

Features include:
