RENOWN 57 KIT WITH SILVER OYSTER PEARL FINISH

In January, 2011, Gretsch went against the grain and conventional design by introducing Renown 57. The unique look thanks to its classic car colors and the Chevron logo immediately became a hit throughout the world and almost 10 years later we still receive order requests for them.

In response to the many requests, for only one year we are introducing a new breed in the coveted series: Renown 57 - Silver Oyster Pearl. The basis of the kit's formula mimic's today's RN2 by adapting the 7-ply maple shell, 30 degree bearing edges, 302 hoops, silver sealer interiors, and Low Profile GTS system.

Today's RN57 have bass drums with no mounts and traditional 14" depths, just what Gretsch enthusiasts often ask for. Both configurations are offered in our Silver Oyster Pearl Nitron.

VATER PERCUSSION DRUMSTICKS

JAY WEINBERG 908 DRUMSTICK

Jay Weinberg's 908 is in between a 5A and 5B for a comfortable grip. It adds 1/4-inch length for some added reach. The 908 has a quick taper for a slight forward throw but with a fast response. The medium-sized barrel tip delivers a defined ride cymbal tone without lacking volume to cut through while putting out full drum tones.

HLNUMBER	MODEL	MSRP	MAP
HL00360112	VHJW908	\$18.25	

AMERICAN HICKORY 9A

HLNUMBER	MODEL	MSRP	MAP
HL00345491	VH9AW	\$16.25	

NUDE SERIES MANHATTAN 7A

Exact stick as our hugely popular Manhattan 7A but in "Nude," so there's no lacquer or finish which helps drummers who encounter their grip slipping from hand sweat. Longer than an average 7A with a small round tip for defined cymbal work.
