

# OZONE 9

## The Future of Mastering

Ozone 9 brings the latest advances in audio technology to the world of mastering. Now with the new **Master Rebalance** and **Low End Focus** modules, it's easier than ever to balance your track and make it ready for release. Find the perfect modern or vintage vibe with an **expanded Master Assistant**, or match to your favorite reference track with the new **Match EQ**. Talk to other iZotope plug-ins in your session with **Tonal Balance Control** and blur the lines between mixing and mastering. Work faster with **improved plug-in performance, smoother metering, and resizable windows**. Stop wondering if your music is ready for primetime— with Ozone 9, the future of mastering is in your hands.

[WWW.IZOTOPE.COM/OZONE](http://WWW.IZOTOPE.COM/OZONE)

- 1 An Expanded Master Assistant can give you a modern or vintage vibe and set the ideal loudness for streaming or CD.
- 2 Dive into your mastering session with beautiful, smooth metering and resizable windows.
- 3 Enhanced Track Referencing that talks to Master Assistant and EQ Match.
- 4 The improved module chain lets you use all 16 of Ozone's modules at once.

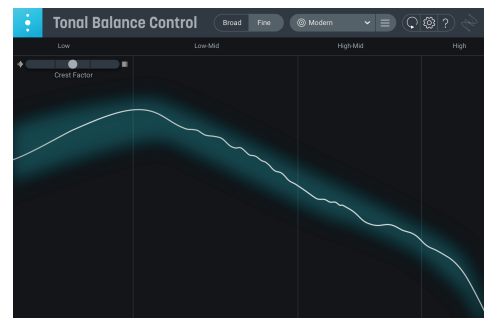

### Master Rebalance

Adjust the levels of vocals and other instruments in a stereo file, letting you solve balance issues without needing the original stems.

### Low End Focus

Quickly change the contrast and definition of your low frequencies and get a hard hitting master every time, without needing a complex plug-in chain.

### Tonal Balance Control

Blur the lines between mixing & mastering with smoother metering, resizability, new target curves, and communication with iZotope plug-ins like Neutron.

## LANDR

[Subscription \$48-\$299/yr]

LANDR is a subscription service that offers automatic, AI-powered mastering. Ozone 9's AI Master Assistant lets you choose your vibe or master to a reference, and then add or change anything after hearing the end result!

"Ozone has changed how we release music forever"

**Noah "40" Shebib, Producer**

*Drake, Beyonce, Lil Wayne, Alicia Keys*

"I really enjoy using Ozone for the stereo imaging. It's excellent for transforming the space in a song."

**Flying Lotus**

*Artist*

"Every contribution I made for Dr. Dre's COMPTON had iZotope's Ozone on it."

**Focus...**

*Producer, Dr. Dre*
